SUMMARY

Full Stack Developer with 2+ years of experience designing, developing, and deploying scalable web applications using Next.js, React.js, Node.js, Express.js, Laravel, Flask, MySQL, and cloud technologies. Experienced in building production-grade solutions across Real Estate, AI Customer Support, Workshop Management, Job Portals, Digital Business Profiles, and Travel domains. Strong expertise in REST API development, database design, payment gateway integration, AI-powered workflows, multilingual applications, SEO optimization, and cloud deployment.

EDUCATION

Karmaveer Adv. Baburao Ganpatrao Thakre College of Engineering, Nashik June 2023

Bachelor of Engineering (Electronics & Telecommunication) CGPA: 7.44/10

R.K.M College, Kalwan

Higher Secondary Certificate (HSC) 62.77

R.K.M High School, Kalwan

Secondary School Certificate (SSC) 77.40

EXPERIENCE

Full Stack Developer June 2024 – Present

Aspire Webs & Informatics, Nashik

- Developed and maintained production web applications using Next.js, React.js, Express.js, Laravel, and Flask.
- Designed and implemented scalable REST APIs and backend services.
- Integrated Stripe, Cashfree, Twilio, OpenAI, and Google APIs.
- Built responsive user interfaces using React.js, Next.js, and Tailwind CSS.
- Optimized backend performance and database operations using MySQL and Redis.
- Deployed applications on Vercel, DigitalOcean, AWS services, and Firebase.
- Collaborated directly with clients to gather requirements and deliver business solutions.

Electronics Engineer Intern March 2022 – April 2022

Sivananda Electronics, Nashik

- Assisted in testing and troubleshooting metal detector door systems.
- Worked with electronic ICs and inductive sensor components.
- Performed quality testing and calibration activities.

PROJECTS

UAE Aqar – Real Estate Platform **Live Site**

Tech Stack: Next.js, Laravel, MySQL, Redis, AWS Lambda, Amazon S3

- Developed a multilingual real estate platform supporting English and Arabic languages.
- Implemented advanced property search, filtering, and Google Maps integration.
- Built image upload workflows using Uppy and Amazon S3.
- Integrated Twilio-based phone verification.
- Developed blog management and property listing modules.
- Built real-time chat functionality between users and property agents.
- Created dashboards for property publishing, drafts, and customer requests.
- Improved application performance using Redis caching.

Property Aaj – Real Estate Platform **Live Site**

Tech Stack: Next.js, Laravel, MySQL

- Built property listing and management modules.
- Developed backend APIs for property data management.
- Implemented responsive and mobile-friendly user interfaces.
- Developed search and filtering functionality.

MechManager – Workshop Management System **Live Site**

Tech Stack: Next.js, Flask, MySQL, Nodemailer

- Implemented schedule demo workflows with automated email notifications.
- Built React multiselect functionality for dynamic state selection.
- Integrated Nodemailer for transactional and confirmation emails.
- Developed blog listing and blog details modules.
- Added skeleton loaders and implemented SEO optimization.

ConsciousAI – AI Customer Support Platform **Live Site**

Tech Stack: Next.js, Express.js, MySQL, OpenAI, Twilio, Stripe

- Built an AI-powered customer support platform integrating OpenAI, Twilio, Google Speech-to-Text, ElevenLabs, and Google TTS.
- Developed Retrieval-Augmented Generation (RAG) workflows for knowledge-based responses.
- Implemented Stripe payment gateway integration and subscription management.
- Developed Stripe webhook processing modules.
- Built onboarding workflows and phone verification.
- Created admin panels for user and company management.

Job Curators – Job Search Platform **Live Site**

Tech Stack: Next.js, Express.js, MySQL

- Developed job posting and application management systems.
- Implemented employer and candidate workflows.
- Built job search and filtering functionality.

Blaze Click – Job Search Platform **Live Site**

Tech Stack: Next.js, Express.js, MySQL

- Developed job listing and application workflows.
- Built employer management, search, and filtering features.
- Developed frontend modules and backend APIs.

Local Shouts Card – Digital Business Profile Platform **Live Site**

Tech Stack: Next.js, Flask, MySQL

- Built a digital business profile platform with multilingual support.
- Implemented i18n localization and middleware-based language routing.
- Integrated Stripe and Cashfree payment gateways.
- Configured SMTP email delivery workflows.
- Integrated Amazon S3 storage and Google Tag Manager.
- Implemented SEO optimization.

RVing USA – Travel Platform **Live Site**

Tech Stack: Laravel, Next.js, MySQL

- Migrated legacy CodeIgniter modules to Laravel architecture.

- Developed administrative dashboard and platform features.
- Improved UI/UX across multiple platform modules.
- Optimized application maintainability and performance.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, PHP, C++

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Laravel, Flask, REST APIs

Databases: MySQL, MongoDB, Redis

Cloud Storage: AWS Lambda, Amazon S3, Vercel, DigitalOcean, Firebase

Integrations: Stripe, Cashfree, Twilio, OpenAI, Google Maps, Google Speech-to-Text, Google TTS, ElevenLabs, Nodemailer

Tools: Git, GitHub, Postman

Other: Authentication, Authorization, SEO, i18n Localization, RAG Systems, Chat Applications, Webhooks, Admin Panels, Subscription Management
